

# Gutter Guard<sup>™</sup>

## Powder-Coated Steel Gutter Screen

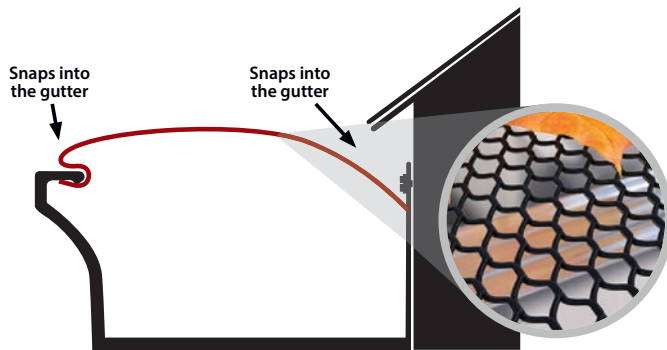

The spring tension mechanism keeps this adaptable, powder-coated steel gutter protector firmly in position, allowing for swift and hassle-free removal without affecting the shingles.

### Features

- Small-sized openings for handling moderate debris levels
- Constructed from powder-coated steel
- Made from .028 gauge expanded galvanized steel

### Easy to Install:

Secures itself within the gutter, without causing any disruption to the shingles — easily attaches and detaches for convenient cleaning.

SPECIFICATIONS				COLORS
LENGTH	WIDTH			ALL SIZES
4'	5"	6"	7"	Black

Similar to all gutter protection solutions, the need for maintenance may arise periodically, contingent on the type and volume of debris, typically involving brushing off the top of the panels.
